WHERE EDUCATION IS EXPERIENCED

FOWLER GRADE SCHOOL

OUR VISION

Fowler Grade School's vision is to provide personalized learning and real-world experiences in a culture focused on leadership opportunities and building relationships. Our mission is to build relationships that facilitate accountability, responsibility, and respect and enhance academic and social growth for lifelong success.

At Fowler schools, each student will be treated as an individual. We will create a program that helps students accelerate or receive extra attention when needing help. Every teacher will know every student.

This will be accomplished through a variety of systems, teaching strategies, and real life experiences beyond the schoolhouse doors.

**"Goldbugs lead their lives,
their school, and their world."**
